**Project description**

This district was created to support the redevelopment of the former Kaiser Tannery site. Plans for redevelopment of the site include the rehabilitation and/or new construction of office/retail facilities, residential development, a student dormitory, a cultural and hospitality venue and other community facilities.

The first phase of the project included site demolition, remediation and preparation for new development, as well as the construction of a new 55 unit high quality affordable housing project. The project plan included \$1,435,000 to be used for site demolition and remediation, construction of a public sewer, a grant to the developer for the affordable housing project, and a forgivable loan pool for property owners in the surrounding neighborhood.

By year-end 2010, demolition and remediation work was completed. In addition, the affordable housing project was complete and leased up. While the first phase of the project has been successfully completed and achieved its value projections, the overall downturn in the residential real estate market has adversely affected the district’s value, as the district’s boundary includes the surrounding residential neighborhood.

Wisconsin Act 183, which was passed in April of 2014, permits amendments to tax increment districts which have experienced a decline in property value such that the district’s value has been at least 10% less than its base value for at least two consecutive years. The City moved forward with an amendment to reset the base value of the district. The amendment obtained final approval by the Joint Review Board on October 14, 2014 and reset the base value of the district to \$24.5 million.

District incremental values are as follows:
