- **Officer Safety Information – Tactics by Rioters**
 - FYSA: News media reporting a Davenport, IA police officer was shot and wounded early today in what officials described as an ambush and two people were killed in shootings as unrest continued in the area. https://www.telegraphherald.com/news/iowa-illinois-wisconsin/article_dd10b3d3-59f0-5fa1-aef7-faf6e6d78f0d.html. This

information is not intended to describe a specific or credible threat to SE WI. It has been shared because it describes a tactic used recently by violent extremists in the U.S. against law enforcement.

- It is still unclear how the ambush initiated. (Initial reports were that it was a drive-by shooting but still working to confirm.) Davenport Police Depart. (DPD) reported a DPD officer was shot and wounded early Monday in an attack they described as an ambush. Early Monday morning violent opportunists were engaged in what DPD dubbed a “mobile riot.” Using coordination, individuals would quickly meet at a location via vehicle, vandalize property and attempt to vacate the area before police could respond. The ambush occurred while DPD responded to one such event around 3 a.m. Monday morning.

Unknown how many are attending but this post has been shared up to 88 times at the time of this publication. It also seems that the residents in the area of MLK and Locust have expressed to [REDACTED] that they want him to move the protest to a different location because they are tired of their neighborhood being tore up. A protest here may cause a clash between the residents and the protesters.
