### Milwaukee County COVID-19 vaccine data summary

#### Milwaukee County COVID-19 Epidemiology Intel Team

This report was updated on March 24, 2022 and includes data through March 21, 2022. Note that data for recent weeks may be under-reported due to lags in data entry. This report includes data on primary vaccinations and booster doses (second dose following Johnson & Johnson primary vaccination or third dose following Pfizer or Moderna primary vaccination series).

#### Daily COVID-19 doses administered to Milwaukee County residents

**Figure 1** shows daily total COVID-19 vaccine doses administered to Milwaukee County residents. A total of 1,455,108 doses (including boosters) have been administered from December 15, 2020 through March 21, 2022. The dark blue color represents the first dose in a series (Pfizer or Moderna). The light blue color indicates a completion dose (first dose of Johnson & Johnson or second dose of Pfizer or Moderna). The orange color indicates a booster dose (second dose following Johnson & Johnson or third dose following Pfizer or Moderna series).

Figure 1: Daily COVID-19 vaccine doses administered to Milwaukee Co. residents

**Figure 2a and 2b** show daily COVID-19 vaccine doses administered to Milwaukee County residents; **Figure 2a** includes primary vaccination doses only, and **Figure 2b** shows all doses including boosters. The overlaid black line shows the 7-day average of daily doses and the bars are colored by vaccine: Pfizer (red), Pfizer Age 5-11 (green), Moderna (blue), and Johnson & Johnson (orange). Daily primary vaccination doses peaked in late March to early April 2021 and have since declined until mid-summer when slight increases occurred in tandem with increasing cases thought to be driven by the delta variant. An increase in primary vaccination doses is observed in the second week of November 2021, driven by new eligibility among ages 5-11.

## Percentages of first doses of COVID-19 vaccine administered to Milwaukee County residents by age and race/ethnicity groups

**Figure 7** shows the percentage of first doses of COVID-19 vaccine administered per week to Milwaukee County residents by age group. After vaccines first became available to healthcare personnel, middleaged groups (25-59) were the majority of new vaccinees. After eligibility opened up to ages 65+, the oldest two age groups became the majority. The younger age groups (< 60) became the majority of people newly vaccinated since eligibility opened up to education staff on March 1st. With the eligibility of children aged 12+, we observed a sharp increase in vaccination for children. A similar increase was observed with the new eligibility of children ages 5-11.

**Figure 8** shows the percentage of first doses of COVID-19 vaccine administered per week to Milwaukee County residents by race/ethnicity. Non-Hispanic Whites were the majority of newly vaccinated individuals for many months, however Black/AA and Hispanic groups have become an increasing proportion of the newly vaccinated over time.

Start day of week

### Completion of primary immunization series among Milwaukee County residents who received at least one dose of Pfizer or Moderna vaccines

**Figure 9** describes the timing between primary vaccination doses for Milwaukee County residents who received Pfizer or Moderna vaccines. This graph includes data for residents who received their first dose of Pfizer or Moderna at least 42 days ago (prior to February 6, 2022). The recommended interval for receiving the second dose is 21 days for the Pfizer vaccine and 28 days for the Moderna vaccine; the second dose is considered valid if administered 4 days prior to the recommended interval and up to 42 days following the first dose for each vaccine.

Fully 89.8% of all residents who received their first dose of Pfizer prior to February 6, 2022 received their second dose within 42 days, indicating very strong completion within guidelines for those receiving a first dose.

Figure 9: Vaccine series completion among Milwaukee Co. residents receiving Pfizer or Moderna

# Summary of vaccine series completion and booster rates among vaccinated Milwaukee County residents

**Table 1** summarizes the rates of primary vaccination series completion and booster uptake by groups based on first vaccine product received, age, sex, and race/ethnicity. The first column, rates of primary vaccination series completion, includes data for residents who received a first dose of Pfizer or Moderna at least 42 days ago; 42 days is the maximum recommended period for receiving the second dose. The second column, rates of booster uptake, includes data for booster eligible residents only; booster eligibility criteria are currently age 12 or older, with one dose of Johnson & Johnson vaccine at least 2 months ago or completion of Pfizer or Moderna primary vaccination series at least 5 months ago. While vaccine series completion rates are high and vary only slightly among groups, receipt of booster doses among booster eligible individuals varies significantly by vaccine product, age, and race/ethnicity with slight variation by sex.

| Characteristic         | Percent with second dose within 42 days among Pfizer and Moderna receipients <sup>1</sup> | *Percent boosted among eligible <sup>1</sup> |
|------------------------|---|--|
| First vaccine received |   |  |
| Pfizer                 | 348,063 / 388,713 (89.5%)   | 178,353 / 312,355 (57.1%)                    |
| Moderna                | 168,391 / 186,639 (90.2%)   | 105,406 / 165,785 (63.6%)                    |
| Johnson & Johnson      |   | 14,527 / 34,418 (42.2%)                      |
| Age                    |   |  |
| 5-11                   | 21,596 / 25,714 (84.0%)   |  |
| 12-15                  | 25,543 / 28,699 (89.0%)   | 7,336 / 22,569 (32.5%)                       |
| 16-17                  | 12,757 / 14,375 (88.7%)   | 4,634 / 11,952 (38.8%)                       |
| 18-24                  | 46,173 / 54,495 (84.7%)   | 18,553 / 48,090 (38.6%)                      |
| 25-39                  | 121,029 / 137,675 (87.9%)   | 61,462 / 124,947 (49.2%)                     |
| 40-59                  | 143,310 / 157,791 (90.8%)   | 89,726 / 152,734 (58.7%)                     |
| 60-79                  | 121,778 / 130,396 (93.4%)   | 97,706 / 127,240 (76.8%)                     |
| 80+                    | 24,268 / 26,207 (92.6%)   | 18,869 / 25,026 (75.4%)                      |
| Sex                    |   |  |
| Female                 | 277,724 / 307,863 (90.2%)   | 162,966 / 272,763 (59.7%)                    |
| Male                   | 237,501 / 265,974 (89.3%)   | 134,743 / 238,492 (56.5%)                    |
| Unknown                | 1,229 / 1,515 (81.1%)   | 577 / 1,303 (44.3%)                          |
| Race/Ethnicity         |   |  |
| Black or AA            | 92,276 / 108,684 (84.9%)  | 43,558 / 89,358 (48.7%)                      |
| White                  | 281,097 / 302,578 (92.9%)   | 189,713 / 283,574 (66.9%)                    |
| Hispanic               | 70,013 / 80,729 (86.7%)   | 29,624 / 67,965 (43.6%)                      |
| Asian or NHOPI         | 28,273 / 31,656 (89.3%)   | 13,305 / 26,516 (50.2%)                      |
| AIAN                   | 2,964 / 3,354 (88.4%)   | 1,597 / 2,948 (54.2%)                        |
| Other                  | 25,333 / 28,501 (88.9%)   | 13,425 / 25,084 (53.5%)                      |
| Unknown                | 16,498 / 19,850 (83.1%)   | 7,064 / 17,113 (41.3%)                       |

<sup>&</sup>lt;sup>1</sup>n / N (%)

<sup>\*</sup>Booster eligible population is aged 12+ with complete primary vaccination prior to October 22, 2021 for Pfizer or Moderna series, or prior to January 20, 2022 for Johnson & Johnson

#### **Data Sources & Acknowledgments**

This report was created by faculty and staff in the Medical College of Wisconsin (MCW) Institute for Health and Equity (IHE) in partnership with representatives from local health departments and faculty from the University of Wisconsin-Milwaukee Zilber School of Public Health. Data sources include the Wisconsin Immunization Registry (WIR) and the US Census Bureau.
