Adam – Here is where we are at with RsM access for MPD.

Given the sensitivities around all things ‘police’ right now, I need to discuss this topic with CEX Crowley. I have a meeting set for 7/28/2020 and should know more about whether or how we proceed after that. Thank you.

Dan,

I am assuming that Christine Westrich called you about this – and you have heard about her resignation. I think MPD is still using RsM for the DNC. I need to give them a solid yes or no on access to our system. I have time tomorrow to talk. I will be in the office.

We can schedule a time to talk. Obviously, this is a much more sensitive topic now, and we don't have the ability to tie it to DNC.

At this time, I would feel much better if this was an ask of OEM to better coordinate MCTS and MPD during critical incidents. I don't know what the Board is going to do with the current arrangements. Just schedule some time on Monday or next week for us to talk. Thank you and have a nice weekend.

Dan,

MPD is moving forward with this project and has invested to integrate our Apollo system with their "Live Earth" video system.

Can we talk on Monday if we can still move forward with this?
