Office of U.S. Representative Bryan Steil  
1526 Longworth House Office Building  
Washington, DC 20515

Representative Steil,

We are writing to you with an urgent request and to express our grave concerns for the safety of our country and civilians around the world.

Earlier today, President Donald Trump warned the world through a social media post that “a whole civilization will die tonight” if Iran fails to meet his deadline. This appears to be an explicit threat to commit unimaginable atrocities against civilians. Congress must act and stop the president’s actions.

We are calling on you and the Congress of the United States to assert your authority and enforce congressional war powers as laid out in Article 1, Section 8 of the Constitution. The president and his administration are letting this conflict spin out of control. It’s time for Congress to step in.

Threatening millions of civilian lives is fundamentally un-American and violates the core values that both Democrats and Republicans share. Whether President Trump intends to follow through on his threat or not, his statement demonstrates he is not fit to be commander-in-chief.

It’s time for you to summon your courage, recognize the gravity of this moment, and do the right thing for our shared future. We must rise above partisanship and call out the president’s recklessness immediately. Reassert congressional control over the conflict in Iran and put an end to the president’s erratic and dangerous actions before it is too late.

We look forward to your prompt response.
