MKE MAKES FLIGHT PLANNING EASY WITH NEW INTERACTIVE ‘WHERE WE FLY’ TOOL *3D route map, flight schedules, and destination info all in one place*

MILWAUKEE (February 21, 2025) – Milwaukee Mitchell International Airport (MKE) is streamlining the way travelers find and book flights with the introduction of a new flight planning tool. MKE’s website now offers a “Where We Fly” module, allowing users to explore Milwaukee’s 30+ nonstop destinations, compare flight times and airlines, and book their flight, all in one place.

“This new tool eliminates the complexities of planning air travel,” said Airport Director Brian Dranzik. “Whether you know exactly where you want to go and need to find the best flight time on your preferred airline, or are looking to explore destinations, the Where We Fly tool lets you do it all in one place without having to compare information across multiple websites.”

Some highlights of the new tool include:

- **3D Route Map:** Users can see all MKE’s nonstop destinations and click on any destination to explore its offerings or view available flights.
- **Destination List:** Scroll an alphabetical list of destinations and click directly on the one you want to view MKE’s available flights.
- **Sort by Filters:** Search for destinations and filter by flight duration, personal interests, and specific airlines.
- **Explore Destinations:** View videos to learn about museums, parks, attractions, and more in each city while also reading expert reviews and local tips.
- **Itinerary Builder:** Save destination attractions to a custom playlist and easily share it with family and friends.
- **Easy Booking:** Go directly to the airline’s website when ready to book by clicking on “Book Flight.”
