FOR IMMEDIATE RELEASE

LPWI Renounces Actions Of An Imperial Presidency

The Libertarian Party of Wisconsin (LPWI), at their state convention last month, passed a resolution strongly denouncing the actions of the Trump Administration and their perceived attempts at an imperial presidency.

"That the LPWI renounce the Trump admins deportations w/o due process, the reckless tariffs, use of I.C.E., attack on free speech and cancellation of student visas, his proposal to abolish birthright citizenship, his invocation of the Alien Enemies Act, weaponization of the justice dept and consolidation of authoritarian power." - LPWI Convention Resolution

Through the above average and occasional misuse of executive orders, the Trump administration has given the outward appearance of a person looking to overuse the power granted to him by the Constitution in an effort to punish perceived enemies.

These actions; paired with the on again, off again implementation of some of them; gives the outward appearance of vindictiveness at best and the perceived desire to become an elected emperor at worst.

The LPWI remains steadfast in their belief that creating a civilization of Liberty, one devoted to the respect and dignity of all, as well as for the individual, will only happen by a committed person working with the courage and integrity to act like the example people want to follow.
