Trump Chaos Threatens Freedom to Build a Better Life

MADISON — Today, the nonpartisan Legislative Fiscal Bureau released revenue projections for the state, which show declining payroll and corporate income tax collections, a clear sign of an economy on the brink in the wake of Trump’s Trade War.

The four Democratic members of the Joint Committee on Finance issued the following statement:

“Now, more than ever, Wisconsinites are struggling to put food on the table and maintain a roof over their heads. This projection shows it’s going to get even worse, especially when our communities start to feel the direct impact of the Trump regime’s trade war around the globe.

“Together, we need to ensure Wisconsinites have the resources to get through the chaos and uncertainty that lies ahead.”
