

City of Milwaukee Protected Bikeways Map

Bikeway Milestone Achieved!

In June 2023, Mayor Cavalier Johnson set a goal to have 50 new miles of protected bikeways completed or in progress by 2026. As of June 2025, Milwaukee has **51.2 miles of new protected bikeways** completed, funded, or in progress.

We're not stopping here! The City of Milwaukee will continue to build out a complete all-ages-and-abilities network of protected bikeways throughout the City in the years to come.
